

Kalyan Kumar Avula

Frontend Developer | React.js | Next.js | TypeScript | TailwindCSS

avulakalyan2001@gmail.com | [LinkedIn](#) | [Portfolio](#) | [Github](#) | +91 6304506343

PROFESSIONAL SUMMARY

Frontend Developer with 3 years of experience building responsive and high-performance web applications using React.js, Next.js, and TypeScript. Improved application load times through performance optimization techniques and delivered scalable, user-focused solutions with clean and maintainable code. Skilled in responsive design, API integration, and modern frontend development practices.

TECHNICAL SKILLS

- **Frontend Core:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3
- **State Management:** Context API, Redux, Zustand.
- **Styling:** TailwindCSS, SCSS, Bootstrap, Styled Components, Custom UI Libraries
- **Testing:** Vitest, React Testing Library, Unit Testing
- **API Integration:** RESTful APIs, GraphQL, React Google Maps API
- **System Design :** Frontend System Design, Docker, CI/CD Pipelines
- **Performance:** Lazy loading, Code splitting, Web Vitals optimization
- **Tools:** Git, GitHub, GitLab, Jira, VS Code, Swagger, Chrome DevTools, Figma
- **Backend Exposure:** Node.js, Express.js (Foundational)
- **Other:** Responsive design, Agile/Scrum Workflows, Cross-browser compatibility, Accessibility standards (WCAG)

PROFESSIONAL EXPERIENCE

Software Engineer, Frontend Development | Clearvue Solutions Pvt Ltd, Bangalore

May 2025 – Present

- Working directly with a UK-based client on a brokerage platform using React.js, TypeScript, TailwindCSS, Zustand, Vitest, React Testing Library and React Query.
- Developed and maintained shared UI components through an internal component library for reusable and consistent application development.
- Implemented unit testing using Vitest and React Testing Library to improve application reliability and maintain code quality.

Key Projects

- **Dealer Portal :** Developed dealer and customer finance workflow modules for managing proposals, direct and brokerage processes, and application journeys across DLP and non-DLP flows

Software Engineer, Frontend Development | CodeCraft Technologies Pvt Ltd, Bangalore
July 2023 – March 2025

- Developed responsive web applications using React.js, Next.js, Tailwindcss and TypeScript with a focus on performance and scalability.
- Built React/Next.js features including real-time notifications and dynamic user workflows.
- Collaborated with cross-functional teams in Agile sprints and mentored junior developers on React best practices.

Key Projects

- **Recruitment App:** Simplified job application processes with real-time updates and candidate tracking
- **Tourism App:** Designed tour planning and booking functionalities, integrating React Google Maps for seamless location services.
- **Event Management App:** Developed event creation, scheduling, ticketing, and profile-building features with Razorpay, email notifications, and WhatsApp messaging for enhanced engagement.

ACHIEVEMENTS

- Achieved the **Peak Performer Award** and received multiple client recognitions for consistent delivery and frontend contributions.
- Received **Above and Beyond** recognition badge for delivering critical frontend optimizations that resolved conversion rate issues during peak holiday season (Q4 2023)
- Consistently exceeded performance metrics, maintaining 98% bug-free code across projects

EDUCATION

Bachelor of Technology, Electrical and Electronics Engineering

Sree Vidyanikethan Engineering College, Tirupati | 2018-2022 | GPA: 8.19

Intermediate (Mathematics, Physics, Chemistry)

Sri Siddhartha Jr. College, Madanapalle | 2016-2018 | Percentage: 94.6%

LANGUAGES

Telugu (Native), English (Proficient), Tamil (Elementary)
